Everybody is VIP at Xclusive Ultra Lounge

by **Brittany Walters-Bearden**

Legendary party promoter, Robert “Twix” Taylor, most known for putting Crown Nightclub on the map, has opened his own nightclub, the Xclusive Ultra Lounge. After spending over a decade throwing parties all over town, Twix has taken all of the best pieces of each nightclub and seamlessly fused them, adding his own signature VIP touch to the venue.

The hidden gem, located near the Hilton Convention Center, is part Rum Jungle, part Crown, part The Bank, and part The Boombox Room at Marquee, geared towards locals who are “in the know.” When you enter the club, you immediately notice their oversized curved VIP booths, a dramatic focal point in the bar area. The next room features a small dance floor surrounding the DJ booth, opening up to a much larger adjacent dance floor with a second DJ. The 8,000 square feet that comprise this unique lounge have labyrinth-like passageways leading to the club’s true core, a series of posh VIP rooms.

Xclusive Ultra Lounge is largely focused around providing the ultimate VIP experience. While at most clubs, bottle service earns you only the right to sit, at Xclusive, you are given your own room, which easily seats 12, video screen to view the action on the dance floor, and choice to listen to the in-house
